

Environmental Policy of Steigenberger Golf Resort

The management and staff of Steigenberger Golf Resort is committed to keep the natural beauty of the destination alive by protecting the environment and conserving natural resources. Therefore the Steigenberger Golf Resort obliges itself to adapt an Environmental Policy with the following actions:

IN OUR HOTEL

1. We fully comply with all Egyptian environmental **laws and regulations** and we support the **protection of the coral reef**.
2. We monitor and record our **environmental performance**.
3. We have an **environmental purchasing policy** which gives preferences to goods and services with the least possible environmental impacts.
4. We provide all employees with the **training** and resources required to meet our environmental objectives.
5. We have implemented systems to **save water** and are constantly setting new targets to save more.
6. We treat all our **waste water** through a sewage **treatment** plant. We recycle it to irrigate our gardens and do not discharge any wastewater into the lagoon, bay area or sea.
7. We are using a system to reduce electricity consumption.
8. We **separate** and treat our waste.
9. We minimize the amount of air **emissions**, wastewater effluent, solid waste and hazardous materials associated with own operations.
10. All our actions concerning the environment are available for our **guests** (via our TV information channel and guest information flyer).
11. We take care that any disturbance of natural ecosystems, caused by either the hotel operation or the hotel construction will be rehabilitated. Actions will be documented in the action plan (e.g. compensatory contribution to conservation management).

Optional

12. We use renewable energies.
13. We are increasing the use of renewable energies each year.
14. We control regularly the **quality of our water** supply, including fresh water and swimming pool water.
